

0. Setting Up Work Environment

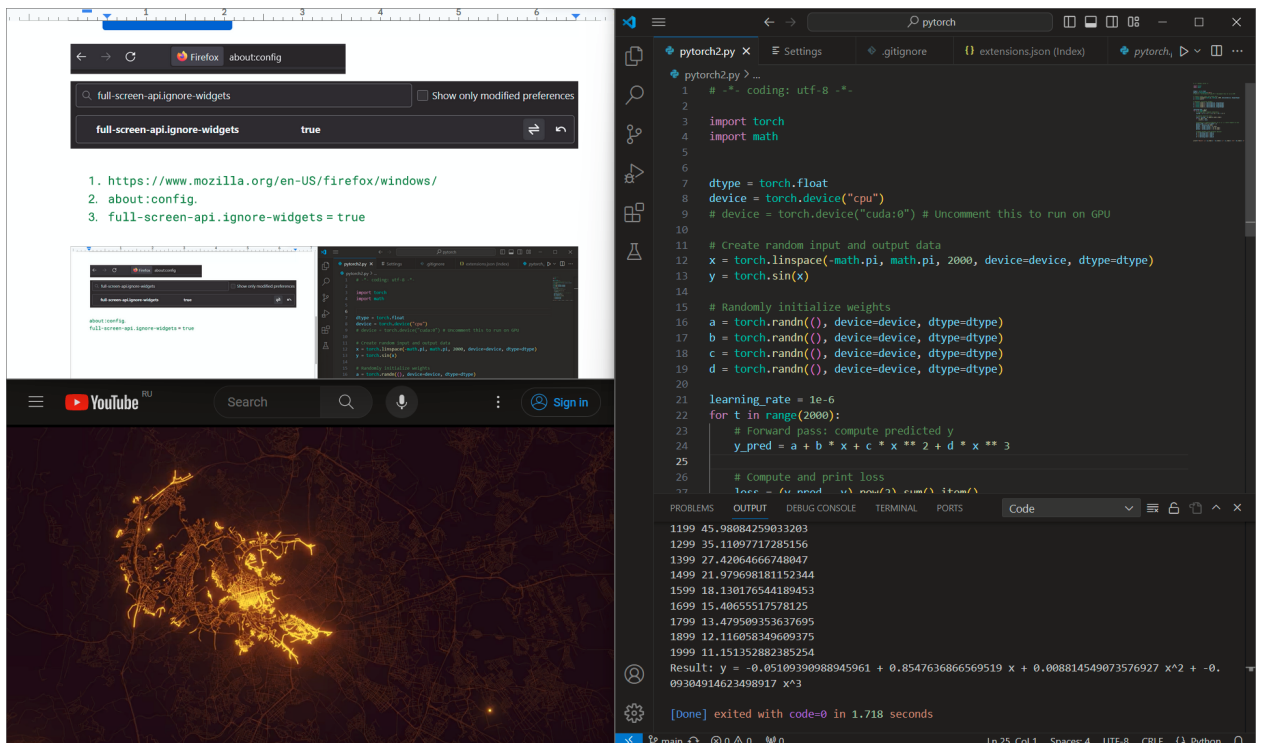

1) Setting up the Browser

In order to create a comfortable working environment where you can use both the **editor** and **multiple browser windows** that can be fullscreened use **Firefox** to access **Google Docs** in **Google Drive**.

1. <https://www.mozilla.org/en-US/firefox/windows/>
2. Type `about:config` in the
3. **full-screen-api.ignore-widgets** and set it to **true**
4. Press **F11** in **windowed mode**

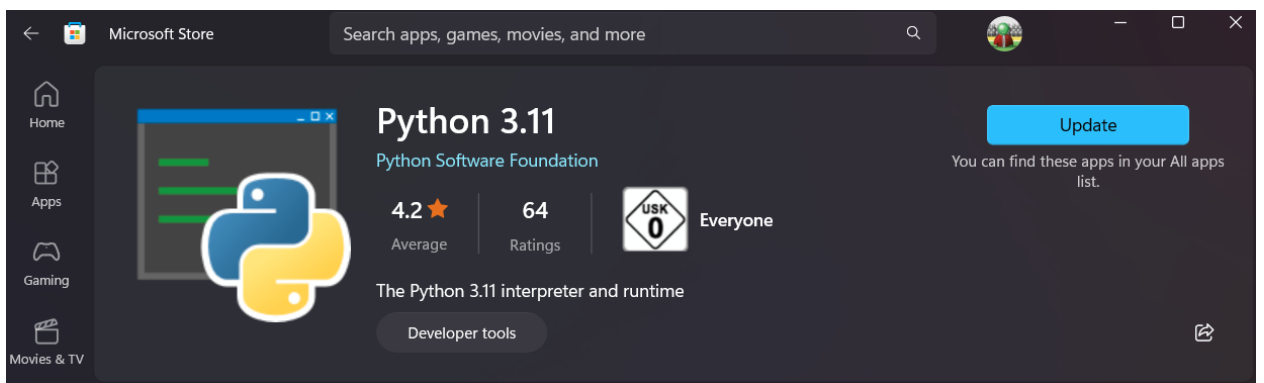

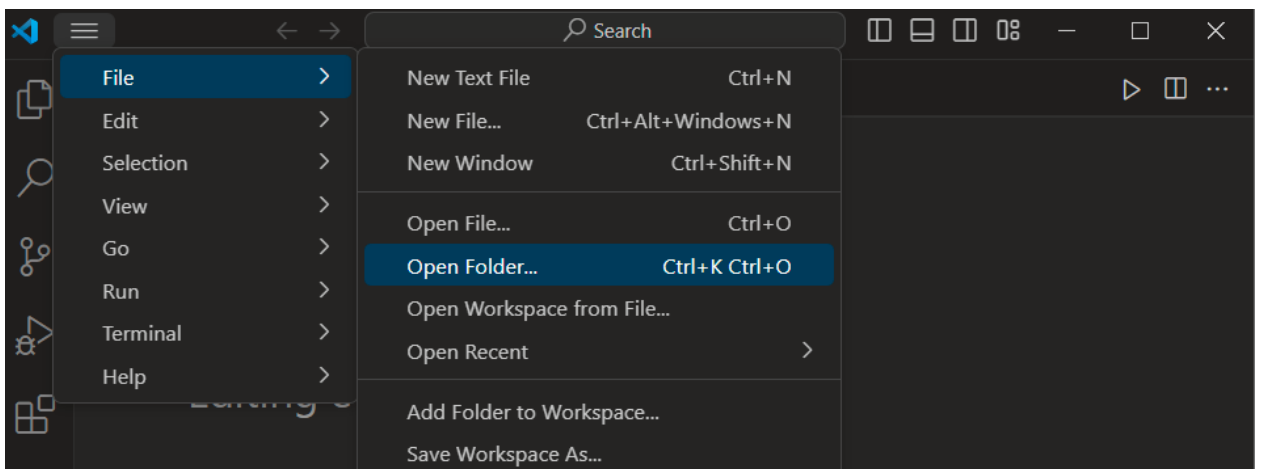

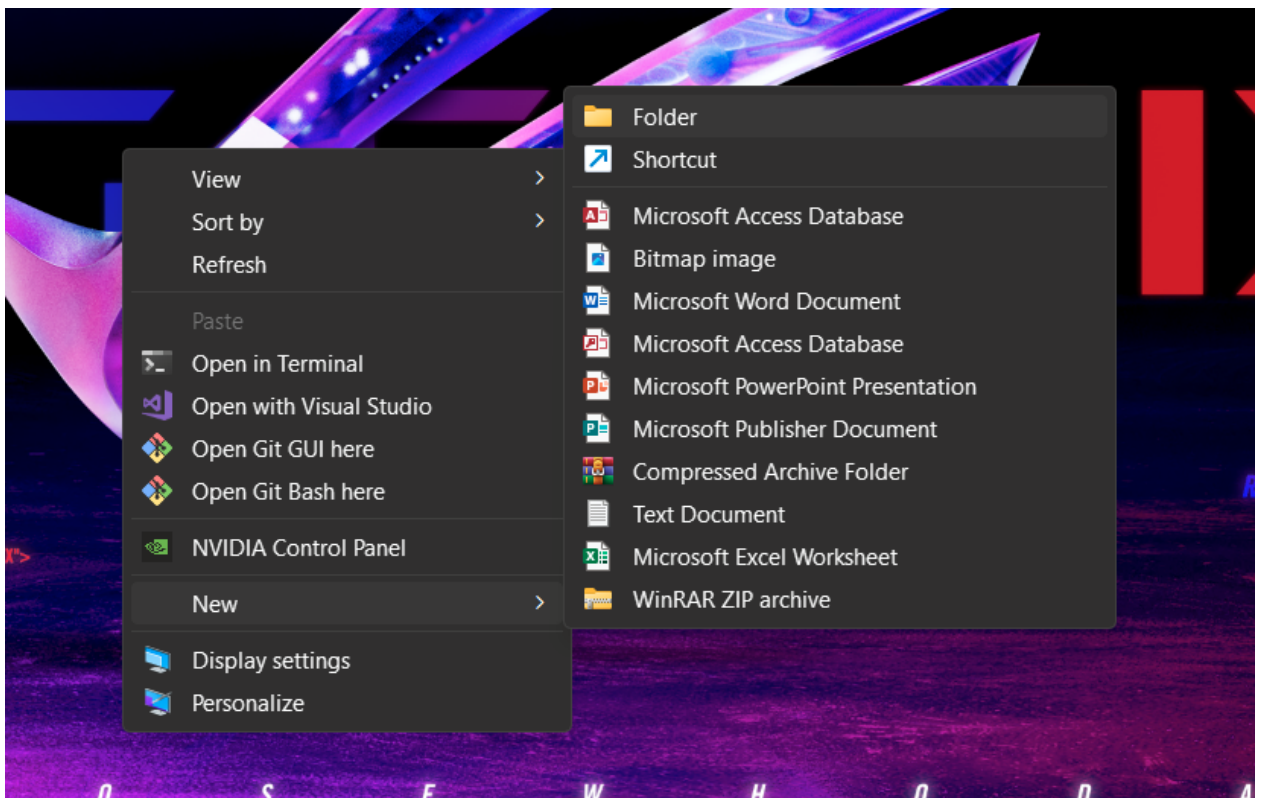

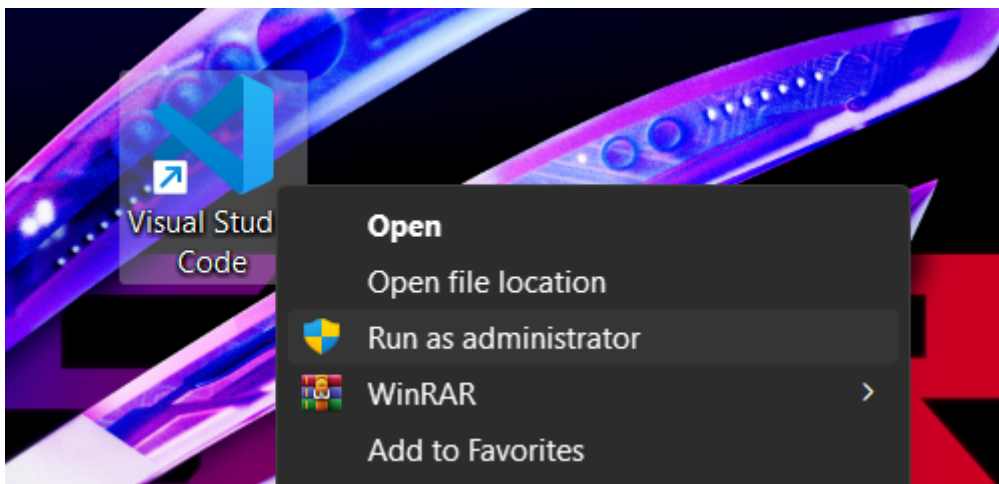

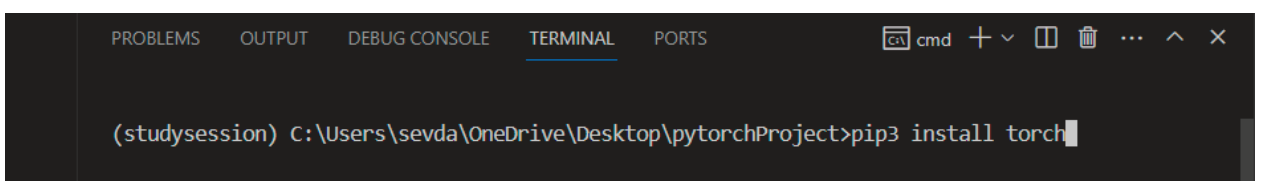

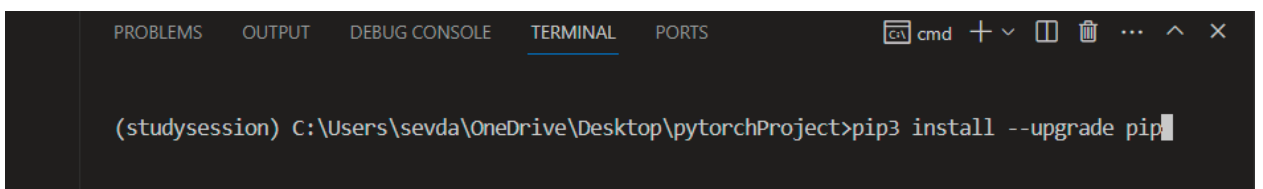

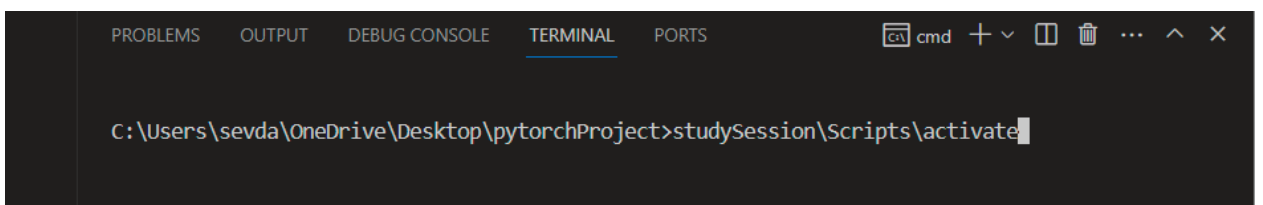

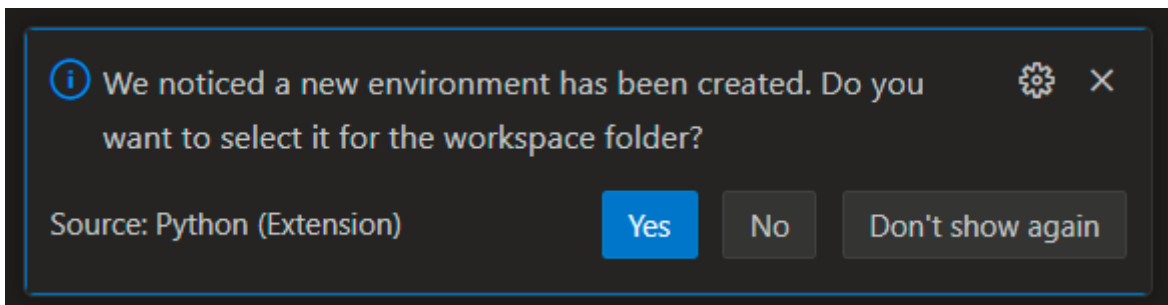

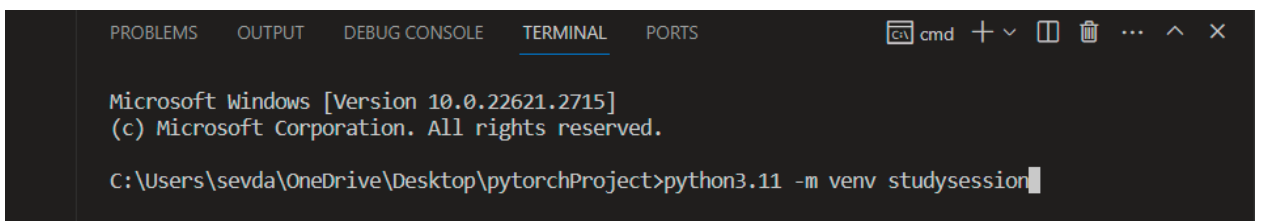

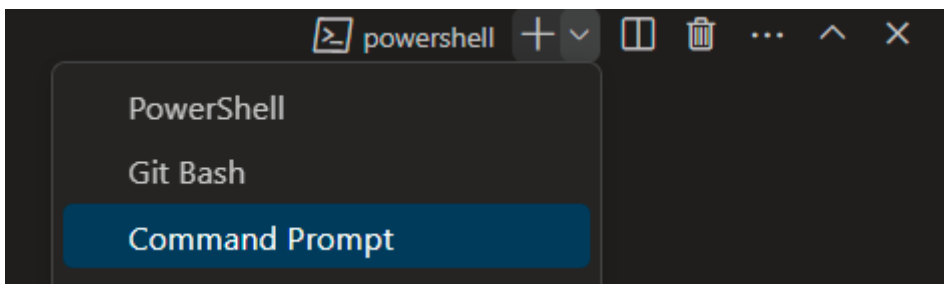

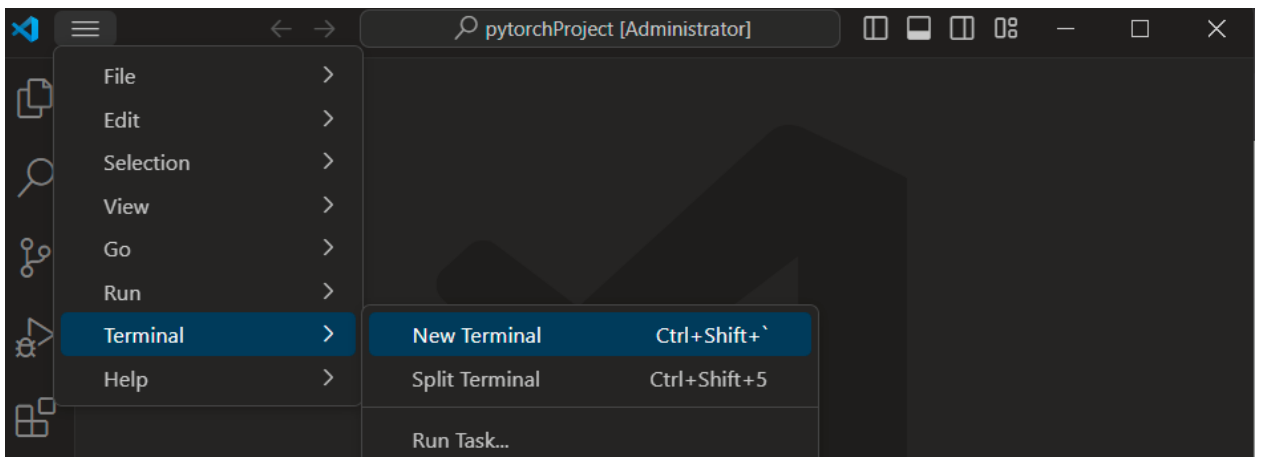

Now you can work in the editor and Pytorch simultaneously without switching windows constantly.

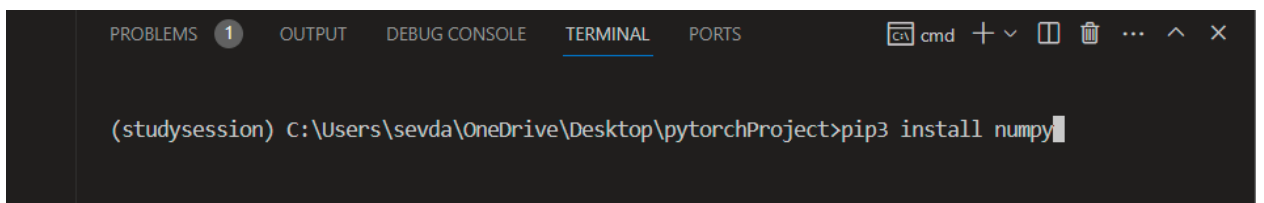

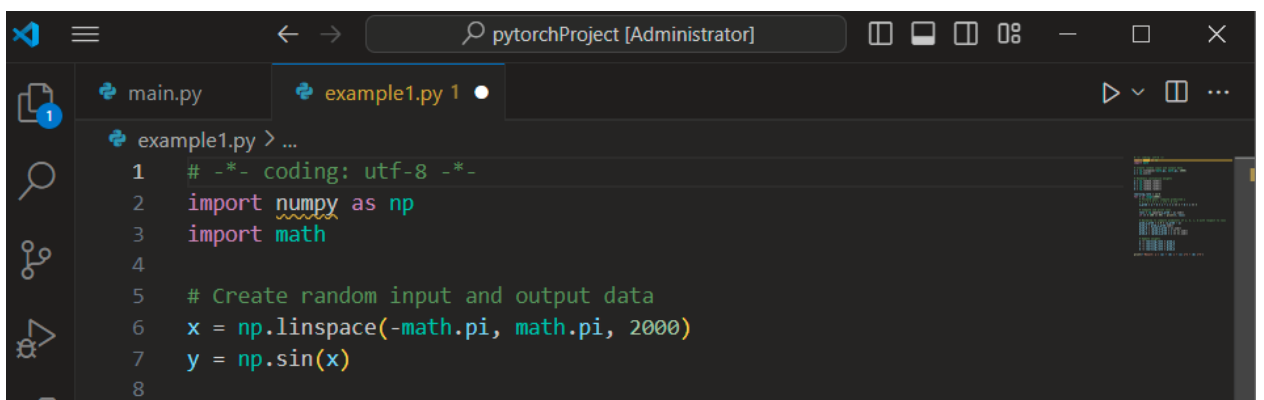

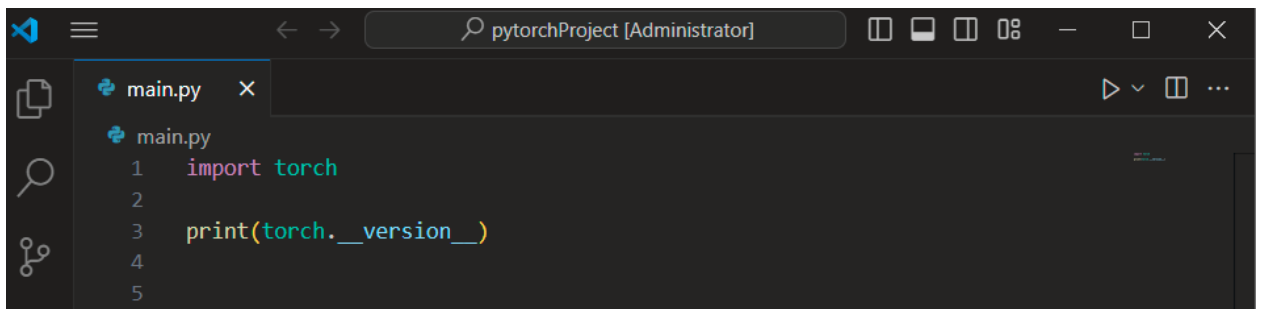

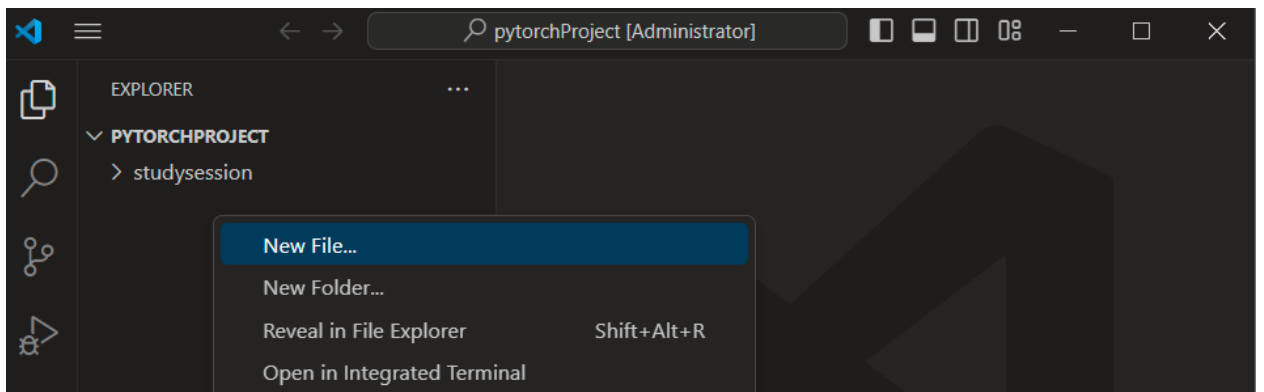

2) Setting up Pytorch

Link: <https://www.youtube.com/watch?v=n0P0rIIABOM>

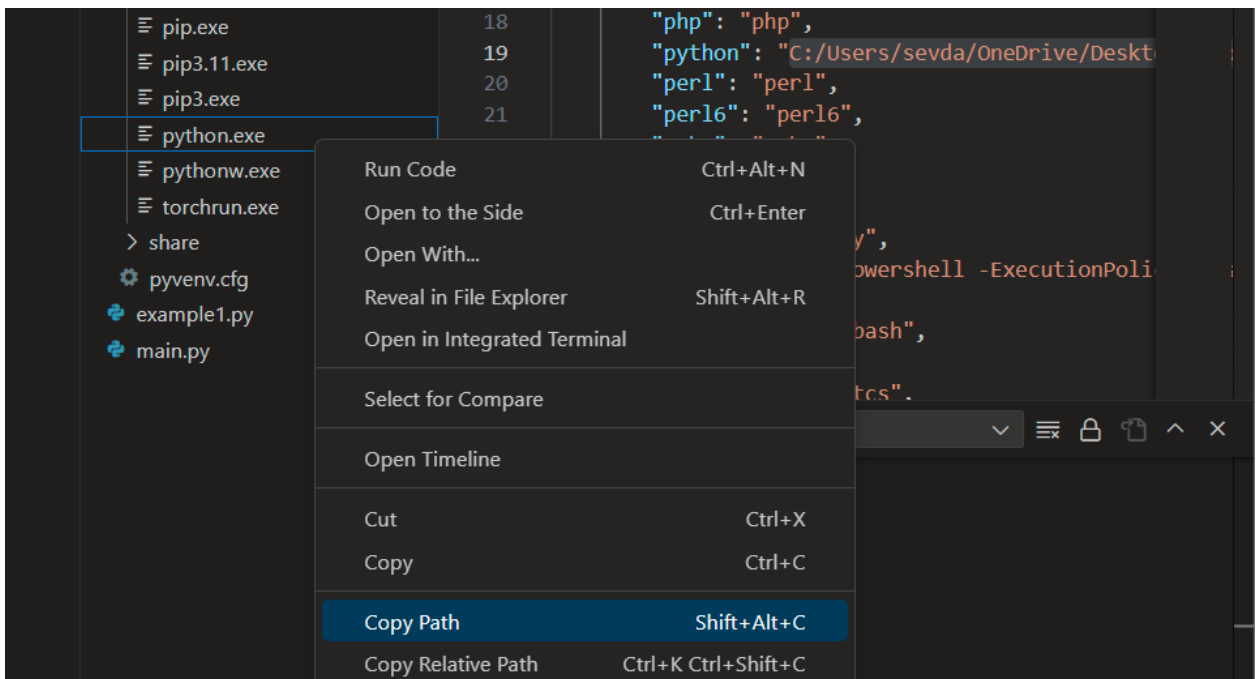

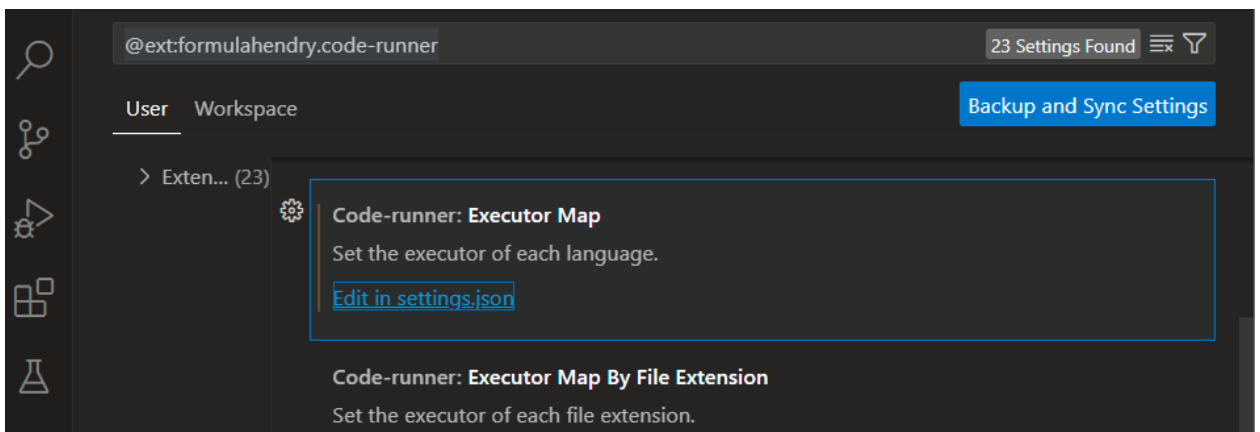

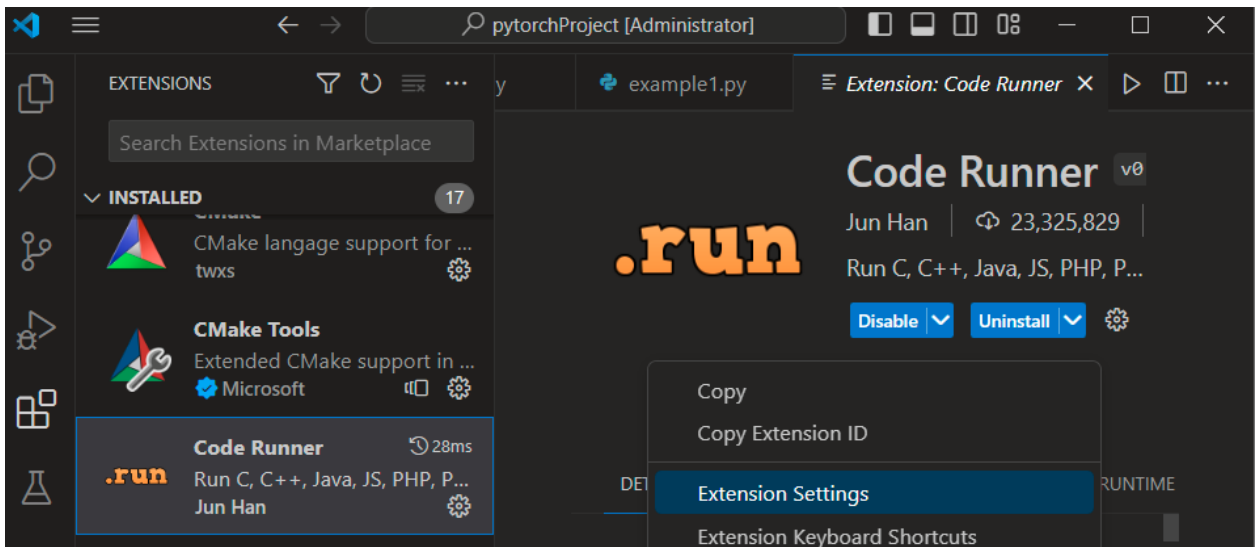

3) Setting up Code Runner
